

Fabric Covered Eggs

Supplies

Plastic Egg

Glue

Fabric (cut into ½-1" mosaic pieces)-color/print will vary

Instructions

1. Cut the fabric strips into small ½-1" mosaic pieces.

2. Glue fabric onto your egg 1 piece at a time smoothing down each piece as you go. When placing the second piece of fabric, overlap edges with the first piece. Don't worry if glue gets on the right side of the fabric.

3. Cover the entire egg with fabric. This is messy. To avoid getting glue on your fingers you can use tweezers to place the pieces of fabric on the egg.
