JULY 2018

LET'S GO TO THE MOVIES

Going to the movies can be expensive, especially if you are a large family. So, why not cut the cost of the movie theater by attending Movie Matinee at the Grandview Branch?

SCPL Grandview Branch is hosting a movie matinee once a week...for free! Thursdays in July grab your popcorn and head to the Grandview Branch for a family-friendly movie matinee. Movies will start at 1:00pm, so show up ahead of time to settle into your seats, as seating is first come, first served!. Snacks and drinks are allowed if brought in a container with a lid. Children under the age of 10 will need a parent/guardian with them during the duration of the movie.

While you're at the library, go ahead and pickup a reading log for your age group. Reading logs are available for children (ages 3-11), teens (ages 12-18) and adults (18+). The summer Reading Program continues until July 21, so you still have time to participate. It's as simple as reading the library books you want and receiving prizes for doing so! Or if you already have a reading log, checkout a book that maybe one of our other three locations doesn't have! Or perhaps you've completed a reading log? Turn your log in to the librarian at the desk to redeem a prize!

Book Review—

Masterpiece by Francine Rivers

"This book's main characters are Grace, who was raised by her aunt after her parents died, and Roman, who was raised in foster care after his mother left him. Both Individuals struggle as adults, recovering from difficult childhoods. The two meet when Grace goes to work for a nationally well-known painter. Grace has a small child for whom she works toward making a home, and she has little confidence in men because of her past. Roman has had a past with many women and realizes Grace is different from the other women he has dated. However, with God's help, both turn their lives around and positive outcomes occur.

This book was a little hard to follow at the beginning because Rivers wrote in the current lives of the characters and then would turn back to their childhoods. If you stick with it, I feel you would enjoy it. I would recommend this book to first-time readers of the author. It is a stand-alone book and not in a series."

Book Review—

Raspberry Danish Murder by Joanne Fluke

"This book is another chapter in the life of Hannah Swenson Barton. Hannah owns a bakery/cookie shop in a small town, and she is also an amateur detective. Hannah is always helping the police when a murder or something bad happens in this small town. In this book, Hannah's new husband has disappeared, so she sets out to find out what has happened to him. In this series, Joanne Fluke puts all of the recipes in the book for you to try!

I enjoy these books because they are very easy to read and they have great recipes too!"
